Current Employment

Front End Web Developer, Talbots, Inc. HINGHAM MA., August 2011- to Present 8+ yrs

I am currently employed at a clothing retailer as a Front End Web Developer on an ecommerce site. We use the Salesforce Commerce Cloud CMS for managing front end content. Tasks include developing and updating content for our responsive platform. Projects are managed through the use of Git, Bitbucket, Trello and Jira.

I also work with third party tools like Adobe Dynamic Tag Management(DTM) now Adobe Launch, Monetate for A/B Testing and Tealium (TIQ). Tealium TiQ is our current Tag Management System. Writing Javascript and knowledge of site performance and testing is a large part of these tasks.

Most Proficient Programming Experience

HTML, CSS, Javascript and VueJS

Interests

Developing progressive web applications, single page applications and static sites using the JAMStack.

My current interests and studies include Javascript, ES6 and the MEVN and MERN Stacks. You might find me poking around in documentation for the following frameworks: NodeJS, ExpressJS, MongoDB, AngularJS, VueJS, ReactJS, NativeScript-Vue, React-Native, NuxtJS, Gridsome, GraphQL, TailwindCSS, Flexbox, CSS Grid, SASS, LESS and Ionic Hybrid Mobile Framework.

Skills { P = Proficient | L = Learning }

Front End

VueJS-L
NuxtJS-L
NativeScript-Vue-L
ES6-L
Javascript-P
tailwindcss-L
SASS-L
CSS-P
HTML-P

Server Side

NodeJS-L
ExpressJS-L

Backend

MongoDB-L
