Current Employment
Front End Web Developer, Talbots, Inc. HINGHAM MA., August 2011- to Present 8+ Years

I am currently employed at a clothing retailer as a Front End Web Developer. We use the SalesForce Commerce Cloud(SFCC) Content Management System for managing front end content. Tasks include developing and updating content for our responsive ecommerce platform. Projects are managed through the use of Git, Bitbucket, Trello and Jira. For past employment experience please refer to my linkedin profile here.

I also work with third party tools like Tealium (TIQ) and Adobe Target. Tealium TiQ is our current Tag Management System. Writing Javascript and knowledge of site performance and testing is a large part of these tasks.

Most Proficient Programming Experience
HTML, CSS, Javascript and VueJS

Interests
Developing progressive web applications, single page applications and static sites using the JAMStack.

My current interests and studies include Javascript, ES6 and the MEVN and MERN Stacks. You might find me poking around in documentation for the following frameworks: NodeJS, ExpressJS, MongoDB, VueJS, NuxtJS, Gridsome, GraphQL and TailwindCSS.

Skills { E = Experienced | L = Learning/Study }

Front End	Server Side	Backend
VueJS-E	NodeJS-L	MongoDB-L
NuxtJS-E	ExpressJS-L	
ES6-E		
Javascript-E		
tailwindcss-E		
SASS-E		
CSS-E		
HTML-E
